Fig. 2

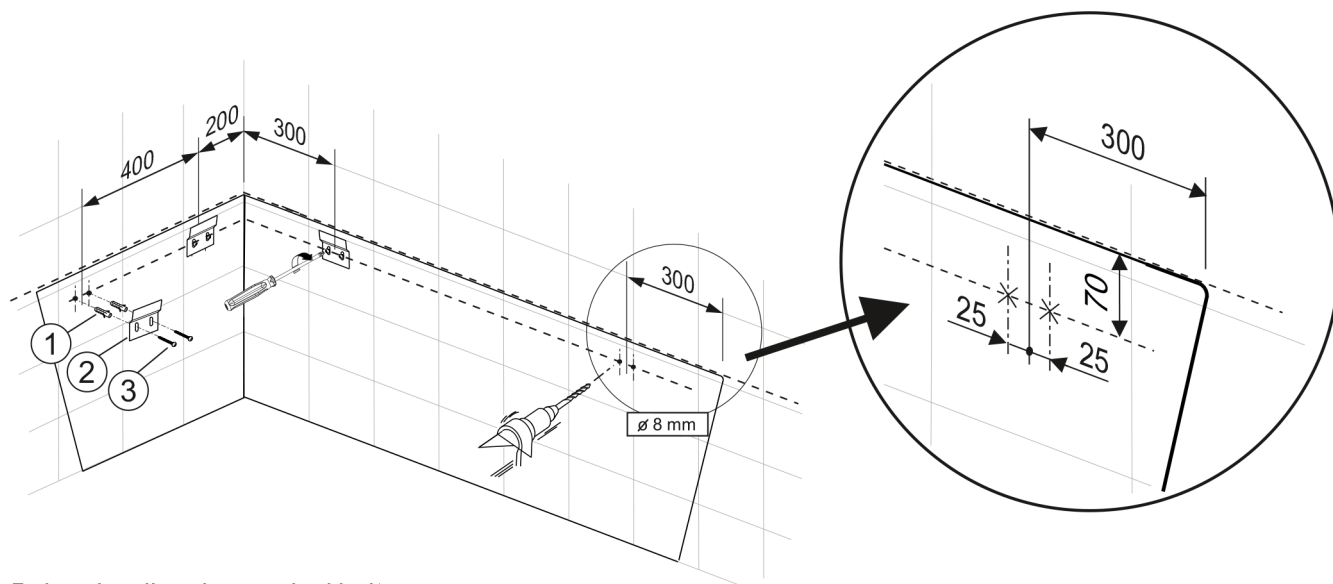

Les pieds réglables doivent être ajustés de manière à ce que le tablier de la baignoire ne touche pas le sol. Seulement après avoir ajusté les pieds le marquage du support mural peut être effectué. Le support mural est uniquement destiné à la fixation et ne doit pas supporter le poids de la baignoire (Fig. 3/6)

The bathtub must not hang on the wall brackets with its own weight or when full (Fig. 3/6). They are used only for horizontal fixation to prevent movement of the bathtub. It is imperative to place and adjust the bathtub so that it stands firmly on all feet while the tub is aligned before marking the brackets on the wall.
